OTS instructions for connecting to the new VPN.

If you have questions or issues with VPN, please log an OTS service request via the DOTD intranet or by calling OTS at (225) 219-6900 or 1-844-219-6900 toll free.

OTM DOTD VPN ACCESS INSTRUCTIONS:

The VPN client is only for use when away from a DOTD Office, as a means to connect back to the DOTD Network. Do Not Attempt to VPN into the DOTD Network while connected at a DOTD Office.

Step 1:

If **Cisco AnyConnect Client**, **Constant** is already installed on your pc/laptop, then just click on it to open

Step 2:

Sisco AnyConnect	Secure Mobility Client		_		\times
Read vpn	y to connect. otm.la.gov	~		Connect	
\$ (i)					alialia cisco

Type in vpn.otm.la.gov, click connect,

And from now on, always use this to vpn to the DOTD Network.

You may get an error message regarding an untrusted server. The message states that you must change settings and remove the checkbox to block connections to untrusted servers. Click the option to "Change Settings" and uncheck the "Block Connections" Box as shown below.

Sisco AnyConnect Secure Mobility	lient	-		×
cisco AnyConne	ct Secure Mobility Client			1

Step 3:

Sisco AnyConne	ct vpn.otm.la.gov
Please ente	r your username and password.
Group:	DOTD
Username:	
Password:	I
	OK Cancel

Type in your DOTD VPN **Username** (without the "**ladotdom**") and **Password**, ensure that "DOTD" is selected and click **OK.** (if that doesn't work, try "DOTD-VPN")

Step 4:

Cisco AnyConnect

Welcome to DOTD VPN Service	e!		\sim
			\lor
	Accept	Disconnect	

Proceed by clicking on Accept

At this time the Cisco AnyConnect Client will perform an upgrade, as indicated by the image shown below.

	The AnyConnect Downloader is installing	
9	AnyConnect Secure Mobility Client 3.1.06073.	-

Upon completion you should now be connected to the VPN and may proceed with your normal DOTD VPN usage.

If you have questions or issues with VPN, please log an OTS service request via the DOTD intranet or by calling OTS at (225) 219-6900 or 1-844-219-6900 toll free.
