Independent Auditor's Report  
on the Financial Statements

**LOUISIANA TRANSPORTATION AUTHORITY**  
**DEPARTMENT OF TRANSPORTATION AND DEVELOPMENT**  
**STATE OF LOUISIANA**  
Baton Rouge, Louisiana

We have audited the accompanying basic financial statements of the Louisiana Transportation Authority, a component unit of the State of Louisiana, as of and for the year ended June 30, 2009. These financial statements are the responsibility of management of the Louisiana Transportation Authority. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Louisiana Transportation Authority as of June 30, 2009, and the changes in financial position and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 24, 2010, on our consideration of the Louisiana Transportation Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, and contracts and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on

compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's discussion and analysis on pages 5 through 8 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Respectfully submitted,

A handwritten signature in blue ink that reads "Daryl G. Purpera". The signature is written in a cursive style with a large initial "D".

Daryl G. Purpera, CPA, CFE  
Legislative Auditor

LTA09

Management's Discussion and Analysis of the Louisiana Transportation Authority's (Authority) financial performance presents a narrative overview and analysis of the Authority's financial activities for the year ended June 30, 2009. This document focuses on the current year's activities, resulting changes, and currently known facts in comparison with the prior year's information. Please read this document in conjunction with the additional information contained in the Authority's financial statements.

## **FINANCIAL HIGHLIGHTS**

- The Authority's assets exceeded its liabilities at the close of fiscal year 2009 by \$117,190,706. The Authority is in a start-up mode and until construction is complete, has no revenue except interest earnings.
- The Authority's operating loss increased by \$2,347 to \$606,565 in fiscal year 2009 from \$604,218 in fiscal year 2008 before capital contributions. Capital contributions totaled \$75,249,754 and \$23,719,649 in fiscal year 2009 and 2008, respectively.

## **OVERVIEW OF THE FINANCIAL STATEMENTS**

These financial statements consist of three sections - Management's Discussion and Analysis (this section), the basic financial statements, and the notes to the financial statements.

### **Basic Financial Statements**

The basic financial statements present information for the Authority as a whole, in a format designed to make the statements easier for the reader to understand. The statements in this section include the Statement of Net Assets; the Statement of Revenues, Expenses, and Changes in Fund Net Assets; and the Statement of Cash Flows.

The Statement of Net Assets presents the current and long-term portions of assets and liabilities separately. The difference between total assets and total liabilities is net assets and may provide a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The Statement of Revenues, Expenses, and Changes in Fund Net Assets presents information showing how the Authority's assets changed as a result of current year operations. Regardless of when cash is affected, all changes in net assets are reported when the underlying transactions occur. As a result, transactions are included that will not affect cash until future fiscal periods.

The Statement of Cash Flows presents information showing how the Authority's cash changed as a result of current year operations. The cash flows statement is prepared using the direct method and includes the reconciliation of operating income (loss) to net cash provided (used) by operating activities (indirect method) as required by GASB 34.

**FINANCIAL ANALYSIS****Net Assets**

The Authority's total net assets at June 30, 2009, changed by approximately \$75 million, a 175% increase over June 30, 2008 (see Table A-1). Total assets increased 28.2% to approximately \$283 million, and total liabilities decreased 6.9% to \$166 million.

**Table A-1**  
**Louisiana Transportation Authority**  
**Statement of Net Assets**  
**(in thousands of dollars)**

	<u>2009</u>	<u>2008</u>
Current assets	NONE	NONE
Noncurrent assets:		
Restricted:		
Cash and cash equivalents	\$19,309	\$86
Investments	6,373	54,675
Other	21	202
Construction-in-progress	253,930	161,730
Other	3,628	4,211
Total assets	<u>283,261</u>	<u>220,904</u>
Current liabilities	67,506	14,687
Noncurrent liabilities	98,565	163,670
Total liabilities	<u>166,071</u>	<u>178,357</u>
Net Assets:		
Invested in capital assets, net of related debt	90,254	45,550
Restricted for capital projects	23,308	NONE
Unrestricted	3,628	(3,003)
Total net assets	<u>\$117,190</u>	<u>\$42,547</u>

This schedule is prepared from the Authority's statement of net assets as shown on page 9, which is prepared on an accrual basis of accounting.

Significant statement of net asset changes from 2008 include the following:

- Noncurrent assets - restricted investments decreased because bond proceeds were spent on construction of the LA Highway 1 project.
- Construction-in-progress increased from continuing construction of the LA Highway 1 project, which is being funded from bond proceeds and from capital contributions received from the Department of Transportation and Development (DOTD).
- Net assets increased primarily as a result of DOTD's capital contributions for the LA Highway 1 project.

### Changes in Net Assets

The change in net assets at June 30, 2009, is approximately \$75 million or 175% more than at June 30, 2008. The changes in net assets are detailed in Table A-2. These changes are primarily the result of capital contributions totaling \$75,249,754 received from DOTD. The Authority is in its start-up phase on the LA Highway 1 project and will have no revenues until the highway opens and toll collection begins.

**Table A-2**  
**Louisiana Transportation Authority**  
**Statement of Changes in Net Assets**  
**(in thousands of dollars)**

	2009	2008
Operating revenues	NONE	NONE
Operating expenses	\$607	\$604
Operating loss	(607)	(604)
Nonoperating revenues (expenses)	NONE	NONE
Capital contributions	75,250	23,719
Change in net assets	74,643	23,115
Net assets, beginning of the year	42,547	19,432
Total net assets	\$117,190	\$42,547

## **CAPITAL ASSET AND DEBT ADMINISTRATION**

### **Capital Assets**

At the end of 2009, the Authority reported capital assets totaling \$253,930,108, which represents an increase of \$92,199,875, or 57%, from fiscal year 2008 and which consists entirely of construction-in-progress for the LA Highway 1 project (see note 5).

### **DEBT ADMINISTRATION**

The Authority had \$195,800,000 in bonds and notes outstanding at fiscal year-end 2009, which has remained constant for each of the last four years because no principal payments have been made (see note 6). Standard & Poor's has given the Authority's bonds a rating of A, while Fitch has rated the bonds as BBB and Moody's has rated the Bond Anticipation Notes as Aa3 and the 2005 series as A2. The Authority has no outstanding claims and judgments at fiscal year-end. No new debt was issued in fiscal year 2009.

### **ECONOMIC FACTORS AND NEXT YEAR'S ACTIVITIES**

Because construction is continuing for Phase 1 of the LA Highway 1 project, the Authority anticipates no revenues from operations until fiscal year 2010. Interest earnings on the investment of bond proceeds are reported as required in the official statement. Continuing expenses paid by DOTD on the project will be recorded by the Authority as contributed capital, which will increase net assets over the next year.

### **CONTACTING THE LOUISIANA TRANSPORTATION AUTHORITY'S MANAGEMENT**

This financial report is designed to provide our residents, taxpayers, customers, and investors and creditors with a general overview of the Authority's finances and to show its accountability for the money it receives. If you have questions about this report or need additional financial information, contact Mr. Michael Bridges, Undersecretary of Management and Finance, Department of Transportation and Development, Post Office Box 94245, Baton Rouge, Louisiana 70804-9245.

## INTRODUCTION

The Louisiana Transportation Authority (Authority) is a public corporation created within the Department of Transportation and Development of the State of Louisiana. The Louisiana Legislature created the Authority pursuant to Act No. 1209 of the 2001 Regular Session of the Louisiana Legislature for the purpose of pursuing alternative and innovative funding sources, including but not limited to public/private partnerships, tolls, and unclaimed property bonds to supplement public revenue sources and to improve Louisiana's transportation system. The Authority is governed by nine directors who shall be the governing body of the Authority with full power to promulgate rules and regulations for the maintenance and operation of the Authority, subject to the approval of the House and Senate committees on Transportation, Highways and Public Works. In accordance with the provisions of the Act, the Authority has the power to issue bonds for any purpose of the Authority and to pledge revenues for the payment of the principal and interest of such bonds. The Authority has no taxing power.

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. BASIS OF PRESENTATION

The accompanying basic financial statements have been prepared on the full accrual basis in accordance with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting principles and financial reporting standards. These principles are found in the *Codification of Governmental Accounting and Financial Reporting Standards*, published by the GASB. The Authority applies all GASB pronouncements as well as Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. The authority has elected to follow GASB pronouncements issued after November 30, 1989, rather than FASB pronouncements.

#### B. REPORTING ENTITY

GASB Codification Section 2100 has defined the governmental reporting entity to be the State of Louisiana. The Authority is considered a component unit of the State of Louisiana because the nine Authority directors are either members of the legislature or are appointed by the governor, and the state is able to impose its will on the Authority through its oversight responsibility. The accompanying financial statements present only the activity of the Authority. Annually, the State of Louisiana issues basic financial statements that include the activity contained in the accompanying financial statements. These basic financial statements are audited by the Louisiana Legislative Auditor.

**C. FUND ACCOUNTING**

All activities of the Authority are accounted for within a single proprietary (enterprise) fund. Proprietary funds are used to account for operations that are (a) financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the cost of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

**D. BASIS OF ACCOUNTING**

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The transactions of the Authority are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operations are included on the Statement of Net Assets.

Revenues are recognized in the accounting period when they are earned and expenses are recognized when the related liability is incurred.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and/or producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

**E. BUDGET PRACTICES**

The Authority does not adopt a formal budget on a fiscal basis.

**F. CASH, CASH EQUIVALENTS, AND INVESTMENTS**

Cash and cash equivalents include amounts on deposit with the fiscal agent bank and invested in money market funds. Under state law, the Authority may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The Master Indenture of Trust dated April 1, 2005, authorizes the trustee, as directed by the Authority, to invest in direct U.S. Treasury obligations; bonds, debentures, notes or other evidence of indebtedness issued or guaranteed by federal agencies or by U.S. government instrumentalities, which are federally sponsored; direct security repurchase agreements of any federal book-entry only securities previously referenced with a financial institution rated not less than "A" by a rating agency and with collateral held by a third party; certificates of deposit; mutual or trust fund institutions registered by the Securities and

Exchange Commission under the Securities Act of 1933 and the Investment Act of 1940 and which have underlying investments consisting solely of and limited to securities of the U.S. government or its agencies; and investment grade commercial paper of domestic U.S. corporations.

Investments that are externally restricted to make debt service payments, to maintain sinking or reserve funds, or to purchase or construct capital or other noncurrent assets are reported as restricted investments.

**G. FIXED ASSETS**

The Authority follows the capitalization policies established by the Louisiana Division of Administration, Office of Statewide Accounting and Reporting Policy. Any infrastructure asset exceeding \$3 million is capitalized and depreciated using the straight-line method over 40 years.

**H. COMPENSATED ABSENCES, PENSION BENEFITS, AND POSTRETIREMENT HEALTH CARE AND LIFE INSURANCE BENEFITS**

The Authority has no employees. The Department of Transportation and Development employees perform the administrative and accounting functions for the Authority. Therefore, no compensated absences, pension benefits, or postretirement benefits are provided by the Authority.

**I. NONCURRENT LIABILITIES**

Bond issuance costs are reported and amortized over the life of the bonds using the straight-line method. Bond premium and discounts are amortized over the life of the bonds using the effective interest-rate method.

**J. NET ASSETS**

Net assets comprise the various net earnings from operations, nonoperating revenues, expenses, and contributions of capital. Net assets are generally classified in the following three components:

Invested in capital assets, net of related debt consists of all capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net assets consist of net assets subject to external constraints placed on net asset use by creditors, grantors, contributors, or laws or regulations of other

governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of all other net assets that are not included in the other categories previously mentioned.

## 2. CASH AND CASH EQUIVALENTS

As reflected on Statement A, the Authority has cash and cash equivalents totaling \$19,308,779 at June 30, 2009. The Authority's cash and cash equivalents are comprised of money market funds that consist of shares in investments in direct obligations of the U.S. Department of the Treasury including Treasury bills, bonds, notes and other obligations issued or guaranteed by the U.S. Treasury, and repurchase agreements backed by such obligations. The Authority's investments in the U.S. Treasury Plus Money Market Funds were rated AAAM by Standard & Poor's and Aaa by Moody's Investors Service. These funds are reflected as restricted assets in the Statement of Net Assets.

## 3. INVESTMENTS

At June 30, 2009, the Authority has investments stated at cost, which approximates market, totaling \$6,372,926, which are composed of repurchase agreements. At June 30, 2009, the repurchase agreements were collateralized by Federal Home Loan Mortgage Corporation (Freddie Mac) and Federal National Mortgage Association (Fannie Mae) mortgage-backed securities, with a fair market value of \$3,456,022 (36%) and \$6,096,623 (64%), respectively, for a total collateral of \$9,552,645 (150%). The securities are rated AAA by Standard & Poor's and Aaa by Moody's Investors Service. The maturities of investments held at June 30, 2009, are as follows:

### Maturity

Less than 1 year	\$2,372,926
10 years or longer	<u>4,000,000</u>
Total	<u><u>\$6,372,926</u></u>

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Authority limits its credit risk with the repurchase agreements by requiring the market value of the securities underlying repurchase agreements to equal at least 100%-105% of the value of the repurchased securities at all times, depending on the type of underlying security. The Authority further limits its credit risk by limiting collateral for repurchase agreements, to securities explicitly guaranteed by the U.S. government (U.S. Treasury, Government National Mortgage Association) and implicitly guaranteed by the U.S. government for government-sponsored entities (Fannie Mae, Freddie Mac, and Federal Home Loan Bank).

Concentration of credit risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. The Authority limits concentration of credit risk by investing in repurchase agreements of financial institutions rated not less than "A" by a rating agency and by requiring collateral of 100%-105% held by a third party.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Authority has no policies to limit its interest rate risk. Because the Fannie Mae and Freddie Mac investments underlying the repurchase agreements are mortgage-backed securities, prepayment options cause them to be highly sensitive to changes in interest rates.

**4. ACCRUED INTEREST RECEIVABLE, RESTRICTED**

The Authority has accrued interest receivable at June 30, 2009, of \$21,430. These amounts represent income from investments earned before the year-end, but not received by the Authority until after the applicable year-end as noted.

**5. CHANGES IN FIXED ASSETS**

A summary of changes in fixed assets for the year ended June 30, 2009, follows:

	Balance June 30, 2008	Additions	Balance June 30, 2009
Construction-in-progress	\$161,730,233	\$92,199,875	\$253,930,108

**6. LONG-TERM LIABILITIES**

The following is a summary of changes in long-term debt of the Authority for the year ended June 30, 2009:

	Balance June 30, 2008	Additions	Reductions	Balance June 30, 2009	Amounts Due Within One Year
Bonds payable	\$195,800,000	NONE	NONE	\$195,800,000	\$66,000,000
Less deferred amounts:					
Unamortized bond discount	(33,431,342)		\$1,069,668	(32,361,674)	(1,126,546)
Unamortized bond premium	1,300,763		(1,063,253)	237,510	237,510
Unamortized bond discount, net	(32,130,579)	NONE	6,415	(32,124,164)	(889,036)
Total liabilities	\$163,669,421	NONE	\$6,415	\$163,675,836	\$65,110,964

On June 9, 2005, the Authority issued Series 2005A Senior Lien Toll Revenue Bonds, Series 2005B Senior Lien Toll Revenue Capital Appreciation Bonds, and Series 2005 Subordinate Lien Toll Revenue Bond Anticipation Notes (BANS), in accordance with the Master Indenture of

Trust, as supplemented by a First Supplemental Indenture of Trust and a Second Supplemental Indenture of Trust all dated as of April 1, 2005. These bonds have maturities between September 1, 2009, and December 1, 2030, with interest rates from 3.5% to 5.0%, except for the Capital Appreciation Bonds, which are interest-free bonds issued at a deep discount.

In addition, the Authority has entered into a Secured Loan Agreement with the U.S. Department of Transportation (USDOT) to borrow up to \$66,000,000 to pay or reimburse the Authority for “Eligible Project Costs” of Phase I by refinancing the Series 2005 Subordinate Lien BANS.

Pursuant to the provisions of the Secured Loan Agreement, the USDOT has agreed to lend the Authority up to \$66,000,000 to pay or reimburse a portion of the Eligible Project Costs of Phase I under the Secured Loan Agreement between the Authority and the USDOT for the purpose of refinancing the Series 2005 Subordinate Lien BANS. To evidence the Authority’s obligations under the Secured Loan Agreement, the Authority issued the Series 2005 Transportation Infrastructure Finance and Innovation Act (TIFIA) Bond as a Subordinate Lien BAN.

All principal and interest are funded in accordance with Article 7, Section 27 of the Louisiana Constitution of 1974. These bonds are not general obligations of the state or any political subdivision thereof, and the faith and credit of the state is not pledged to the payment of these bonds. The Series 2005 Senior Lien bonds are payable solely from a first lien on and pledge of toll revenues. The Series 2005 Subordinate Lien BANS, which are to be refinanced by the TIFIA loan, are payable solely from a second lien on and pledge of toll revenues.

Details of all debt outstanding at June 30, 2009, follow:

	Date of Issue	Original Issue	Outstanding June 30, 2008	Issued (Redeemed)	Outstanding June 30, 2009	Maturities	Interest Rates	Future Interest Payments, June 30, 2009
Series 2005A Senior Lien Toll Revenue Bonds	June 9, 2005	\$78,350,000	\$78,350,000		\$78,350,000	2014-2031	3.5% - 4.5%	\$54,430,513
Series 2005B Senior Lien Toll Revenue Capital Appreciation Bonds	June 9, 2005	51,450,000	51,450,000		51,450,000	2025-2029	5.17% - 5.34%	
Series 2005 Subordinate Lien Toll Revenue Bond Anticipation Notes	June 9, 2005	<u>66,000,000</u>	<u>66,000,000</u>		<u>66,000,000</u>	2010	3.875% - 5.0%	<u>810,375</u>
Total		<u>\$195,800,000</u>	195,800,000	<u>NONE</u>	195,800,000			<u>\$55,240,888</u>
Net premium (discounts)			(32,071,834)		(32,130,579)			
Net accumulated amortization of premiums/discounts			<u>(58,745)</u>		<u>6,415</u>			
Bonds payable, net			<u>\$163,669,421</u>		<u>\$163,675,836</u>			

The annual requirements to amortize all bonds outstanding at June 30, 2009, are as follows:

	Principal	Interest	Total
2010	\$66,000,000	\$4,192,551	\$70,192,551
2011		3,382,176	3,382,176

## 7. COOPERATIVE ENDEAVORS

Louisiana Revised Statute 33:9022 defines cooperative endeavors as any form of economic development assistance between and among the state of Louisiana, its local governmental subdivisions, political corporations, public benefit corporations, the United States government or its agencies, or any public or private association, corporation, or individual. The term cooperative endeavor includes cooperative financing, cooperative development, or any form of cooperative economic development activity. The state of Louisiana has entered into cooperative endeavor agreements with certain entities aimed at developing the economy of the state.

The Authority entered into two cooperative endeavors, one with the Louisiana Department of Transportation and Development (DOTD) and the other with the State of Louisiana through the Division of Administration and the Louisiana Department of Economic Development (DED) in April 2005 to enhance the feasibility of financing Phase I of the LA 1 Project.

DOTD's obligations under the agreement are as follows: (1) align funding agreements with the Federal Highway Administration (FHWA) for advance construction; (2) guarantee the payment of costs overruns of Phase I; and (3) pay future operating and maintenance expenses from available DOTD funding subject to appropriation. The guarantee of funding from DOTD is to ensure that the owners of the Series 2005 bonds will be granted a gross revenue pledge on any tolls generated by Phase I. At June 30, 2009, the Authority did not have a liability to DOTD based on the cooperative endeavor agreement.

DED's obligations under the agreement are limited to \$18,000,000 per fiscal year, given that the Louisiana Legislature appropriates funds to cover this amount, to supplement the Debt Service Reserve for the Senior Lien Bond Debt if insufficient funds are on deposit to make payment obligations. The Authority must reimburse all amounts paid under this agreement before any additional bonds can be issued. At June 30, 2009, there are no outstanding liabilities with DED based on the cooperative endeavor agreement.

## **8. SUBSEQUENT EVENTS**

On July 8, 2009, Phase 1A of the LA 1 toll road was opened, and the Authority began collecting tolls on August 3, 2009.

On August 26, 2009, the Authority received \$66 million in proceeds from the TIFIA loan. The funds were sent directly from the federal government to the Bank of New York, the Authority's trustee. Bank of New York used those funds to pay the Series 2005 Subordinate Lien BANS, in accordance with the Master Indenture of Trust, as supplemented by a First Supplemental Indenture of Trust and a Second Supplemental Indenture of Trust, all dated as of April 1, 2005. The BANS matured and were paid on September 1, 2009.

On January 15, 2010, Electronic Transaction Consultants Corporation (ETC) filed a claim against DOTD in the amount of \$3,681,072, of which \$428,827 is attributed to the LTA toll road (LA 1) system. However, DOTD is liable for the LA 1 portion, not LTA. Therefore, there is no monetary liability to LTA.

On February 5, 2010, Dr. William Ankner, DOTD Secretary and the Authority's Board Chairman resigned from his position. Deputy Secretary Sherri LeBas was then named Interim Secretary and Acting Chairman of the LTA Board. On June 25, 2010, Sheri LeBas was permanently appointed as DOTD Secretary and effectively the Chairman of the LTA Board.

On April 21, 2010, the Deepwater Horizon oil rig exploded approximately 50 miles off the coast of southeast Louisiana (near Venice, Louisiana). The explosion caused a major oil spill in the Gulf of Mexico. It is unknown exactly what economic impact the oil spill will have on the state and local government operations in Louisiana. The Authority's toll road (LA 1) is the primary route to access the southeastern coast of Louisiana. This disaster could have a direct impact on the Authority related to the collection of tolls. The long-term effects of this event on the Authority cannot be determined at this time.

**OTHER REPORT REQUIRED BY**  
***GOVERNMENT AUDITING STANDARDS***

The following pages contain our report on internal control over financial reporting and on compliance and other matters as required by *Government Auditing Standards*, issued by the Comptroller General of the United States. This report is based solely on the audit of the financial statements and includes, where appropriate, any significant deficiencies and/or material weaknesses in internal control or compliance and other matters that would be material to the presented financial statements.

LOUISIANA LEGISLATIVE AUDITOR  
DARYL G. PURPERA, CPA, CFE

June 24, 2010

Report on Internal Control Over Financial Reporting and on Compliance  
and Other Matters Based on an Audit of Financial Statements Performed in  
Accordance With *Government Auditing Standards*

**LOUISIANA TRANSPORTATION AUTHORITY  
DEPARTMENT OF TRANSPORTATION AND DEVELOPMENT  
STATE OF LOUISIANA**

Baton Rouge, Louisiana

We have audited the basic financial statements of the Louisiana Transportation Authority (Authority), a component unit of the State of Louisiana, as of and for the year ended June 30, 2009, and have issued our report thereon dated June 24, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contracts, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Authority, the department and its management, others within the entity, and the Louisiana Legislature and is not intended to be, and should not be, used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Respectfully submitted,

Daryl G. Purpera, CPA, CFE  
Legislative Auditor
