Product Data Sheets

Include product data sheets to provide all pertinent information relative to the product to be evaluated; including, but not limited to, manufacturer's specifications and a Materials Safety Data Sheet (MSDS).

Certification and/or Test Reports

Each product shall be submitted with a Certificate of Compliance and test reports that the product meets all specifications in TCS No. 22.

The lab reports and all supporting documents shall be provided and signed by a professional engineer.

Sample (to be furnished at no cost to the Department)

A sample may be requested by LADOTD Engineer.

TEST REQUIREMENTS:

Laboratory Testing

LADOTD Traffic Operations Section will review the Certificate of Compliance and supporting test data for compliance with TCS No. 22.

Evaluation Time

Laboratory Testing - 4 weeks

GENERAL:

Upon completion of the evaluation, the submitter will be notified in writing concerning the results of the evaluation and whether the product will or will not be added to the TOAPL. The Department reserves the right to reevaluate any product at any time.

PROJECT ACCEPTANCE REQUIREMENTS:

Approval of a product is not blanket approval for its use.
At the time of installation or delivery, the pull boxes shall be furnished with the Certification of Compliance.

DISQUALIFICATION:

Any product may be removed from the TOAPL for non-conformance with specifications or performance requirements. The Department must be notified in writing of any name change or change in product. Significant changes may require reevaluation of the product.

REQUALIFICATION:

Any product which has been disqualified and removed from the TOAPL will be considered for reevaluation only after submission of a formal request along with acceptable evidence that the problems causing the disqualification have been solved.
